Nick Nobereit,

Gérant Halog France SARL

Dear Colleagues,

The Code of Conduct is the basis for our working together in a constructive and respectful manner. It contains our values and principles for ethical business practices and social entrepreneurial behavior. This has been communicated and explained to all employees.

Our goal is to act together as a team and to convey this to our business partners. This objective is built on the four pillars of commitment, environmental awareness, competence and social interaction.

Our values such as trust, respect, responsibility and transparency play an important role. Business success and business targets are very closely linked and so form the framework for the Code of Conduct.

It is a promise of trustful behavior towards our business partners. At the same time it is a mission statement for us as a team.

The Code of Conduct is thus binding and to be adopted by everyone - the Management Board, the Managing Directors and the employees.

Kind regards,

C O D E O F C O N D U C T
